- (1 pk) **A019685** - 1.5" Silver Plated Headpins 20 Gauge with Ball Top

Instructions

1

Start with 9" of leather. Make a Lark's Head Knot by folding leather in half, slide loop through TierraCast drop halfway and feed both leather ends through leather loop.

2

Turn around and tighten loop. *Make sure to keep leather ends flat and side by side.*

3

Cut the tips of the leather ends at an angle to create a pointed tip. Slide a bead through leather end and make a knot 1.5" - 1.75" inches away from the base of the TierraCast drop.

4

Repeat Step 3 with other leather end, while making a knot slightly shorter. Cut leather ends at an angle, 1/4" away from knot.

5

Slide a gemstone coin bead and seed bead onto a headpin and make a simple loop. *Make sure your loop is slightly bigger to slide onto TierraCast drop.*

6

Open loop of dangle and slide onto the underside of TierraCast drop hole. Close loop. Open loop of earwire and slide on hole of TierraCast drop. Close loop.

7

Repeat all steps to other earring.
