

1. Hold the Instant Pendant tightly in your fingers (righty-tighty, lefty-loosy) twist the Round Finial **left** to unscrew it from the body of the Instant Pendant.

2. Continue twisting **left** until the finial is free.

3. Add the beads that you like and in the order you like to the Instant Pendant Pin.

4. Once the Goody Beads are to your liking, screw on the Round Finial and tighten.

*Note: This Finding can be opened and closed many times to refresh or change out your beads. To make the pendant permanent, put a drop of glue into the finial and screw onto the post.*

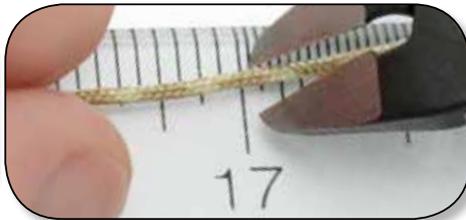

5. To attach the Loop Crimp to the Stringing Material, make sure the end is cut square. If not re-cut it. Grasp the Loop Crimp with the Micro Crimp Tool so that the jaws are on the slit sides.

6. Insert the Stringing Material into the Loop Crimp and make sure it comes to the top opening in the Loop Crimp.

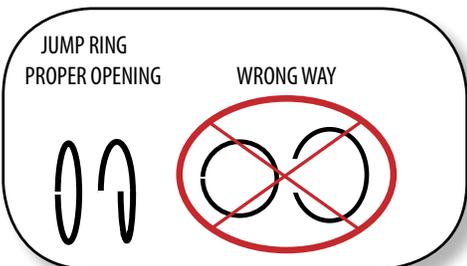

7. Carefully squeeze the Micro Crimp Pliers until the sides of the Loop Crimp begin to crush inward.

8. If you desire, cut the 20" piece of Stringing Material to a shorter length.

9. Insert the freshly cut end of the Stringing Material into the loop on the Pendant, then repeat steps 5-7 to attach the Loop Crimp onto the other end of the Stringing Material.

10. Open two of the supplied Jump Rings and hook one onto one of the Loop Crimps, then close. Hook the other onto the other Loop Crimp end, attach the Lobster Claw Clasp, then close it to finish the Instant Pendant Necklace.

*Properly crimped Loop Crimps attached to Lobster Claw Clasp with Jump Rings.*

*Use large hole Goody Beads to decorate the Instant Pendant to your liking!  
Use other items to enhance the look of the Instant Pendant!*

With 5 different beads you can make 25 combinations for this pendant. Here are three versions.
