Instructions

1

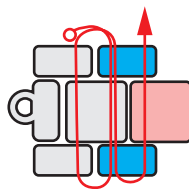

Using a 4 feet piece of beading thread, sew through one half Tila bead, Cymbal and another half Tila bead.

Sew up the other hole of the half Tila bead and pick up a Tila bead and through the second hole of first half Tila. Leaving a good 5 inch thread tail, tie the thread ends together.

SEW through the sequence of beads once more.

2

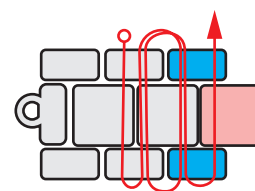

Pick up a half Tila bead and sew through second hole of Tila bead.

Pick up a half Tila and through previous half Tila. Loop through the sequence of beads halfway through the second half Tila you've added.

Sew through the second hole of the half Tila, pick up a Tila bead and sew through the second hole of the first half Tila in this Step.

3

Sew down and up through previously added beads to secure this section of the pattern.

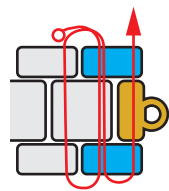

Repeat Step 2

4

Repeat Step 3 for another 29 more times, completing with a total of 32 Tilas for an average 7.5" wrist size.

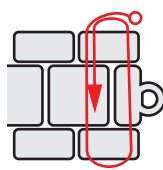

Adjust the bracelet length by adding or lessening Tila sequences.

5

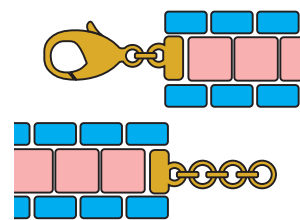

Repeat Steps 3, while substituting the Tila bead for another Cymbal.

6

Sew through the sequence of beads again to secure pattern. Tie off ends and cut off excess beading thread.

7

Open jump rings and attach your choice if clasp ends.
