Instructions

1

Starting with 7.5" of elastic, gently pull and stretch elastic to loosen the elasticity. Slide on crimp tube and make a flat crimp at one end. Follow the illustration to slide on the following products. At the end, slide on another crimp tube and make another flat crimp.

2

With another 7.5" piece of elastic, gently pull to strtch elastic. Slide on crimp tube and make a flat crimp at one end. Follow illustration to string on the bottom portion, while adding a 11/0 in between beads. End with adding another crimp tube and making a flat crimp.

3

Stretch out your bracelet to symmetrically situate and level out the beads. Open 4mm jump ring, slide on a 5.5mm jump ring and through one loop end of your Cymbal component. Close jump ring.

4

Open another 4mm jump ring, slide through other Cymbal component and close jump ring. Open another 4mm jump ring, slide through previous 4mm jump ring and through loop of clasp. Close jump ring.
