

Honeycomb Lattice Licorice Leather Bracelet

Components

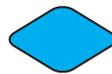

- SB00066** - 8/0 Black Opaque Seed Bead
- SB00423** - 11/0 Galvanized Yellow Gold Seed Bead
- SB03303** - Chalk Champagne DiamonDuo
- (8) **SW00358** - Swarovski® 4mm Bacon Fuchsia AB 2X
- Z001106** - Gold Plated Magnetic Clasp For Licorice Leather
- A006585** - 4lb Crystal Fireline Thread
- Z011831** - Crystal Full Amber Honeycomb
- Z014871** - Turquoise Green Lumi Honeycomb
- A015841** - 12mm Black Rubber O-Rings
- A015821** - Super New Glue
- A022052** - Matte Black Regaliz Licorice Leather

Instructions

1

Start with a 4-5 feet piece of beading thread. Sew and loop through 4 diamonduos, per the illustration. Knot both ends to secure first loop of the pattern, leaving a tail end of about 5 -6 inches.

Seed Bead

2

Sew through the three diamonduos. Pick up an 8/0 seed bead, 11/0 seed bead, diamonduo, 11/0 seed bead, TWO 8/0 seed beads and 11/0 seed bead. Sew through outer hole of first diamonduo and pick up the rest of the remaining beads in the pattern, per illustration and up through the three diamonduos again and down through other diamonduo pattern holes.

3

Pick up an 8/0 seed bead, 11/0 seed bead, diamonduo, 11/0 seed bead, 8/0 seed bead and diamonduo. Sew through outer diamonduo. Pick up the rest of the remaining beads in the pattern, per illustration and down through the three diamonduos, looping up through the first sequence of beads and and up the three diamonduos.

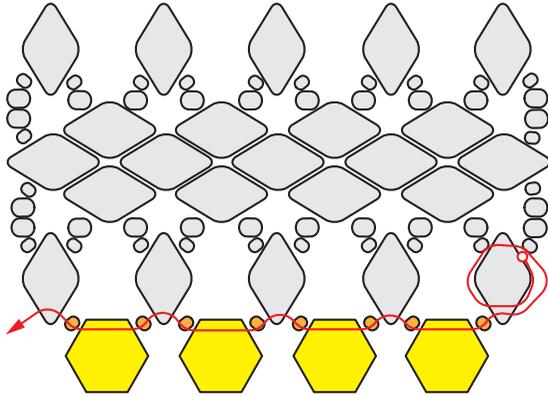

Sew down other hole of the top diamonduo, pick up another diamonduo and through the other diamonduo in pattern.

4

Repeat Steps 3 two more times.

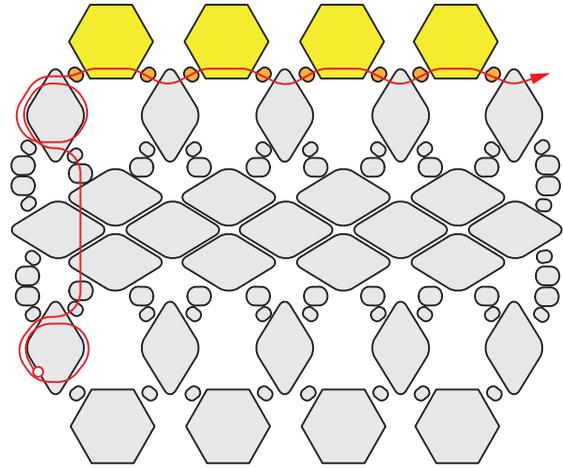

Pick up an 8/0 seed bead, 11/0 seed bead, diamonduo, 11/0 seed bead, TWO 8/0 seed beads and 11/0 seed bead. Sew through outer diamonduo. Pick up the rest of the remaining beads in the pattern, per illustration, and down through the three diamonduo, and the next three beads, coming out of the diamonduo.

5

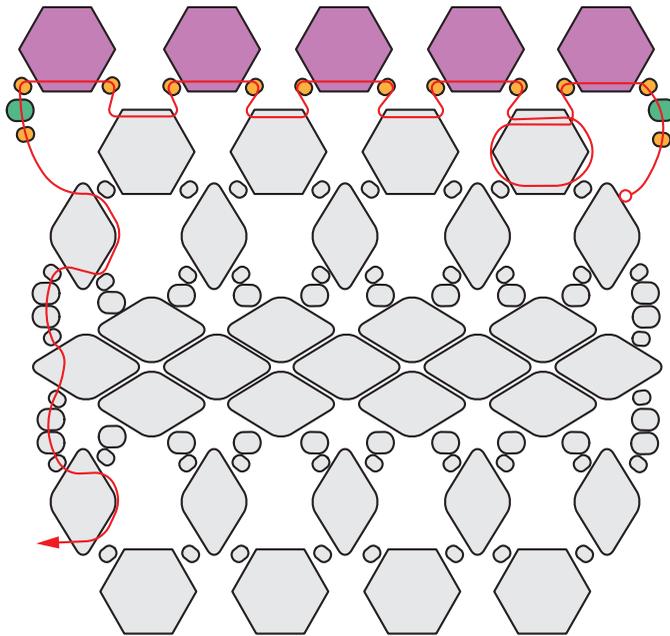

Loop around diamonduo to secure pattern you've sewn. Sew through outer diamonduos, while picking up an 11/0 seed bead, primary honeycomb and 11/0 seed bead in between each diamonduo. Refer to illustration.

6

Loop around diamonduo to secure pattern you've sewn. Sew through to the other side and loop around the opposite diamonduo to secure path. Sew through outer diamonduos, while picking up an 11/0 seed bead, honeycomb and 11/0 seed bead in between each diamonduo. Refer to illustration.

7

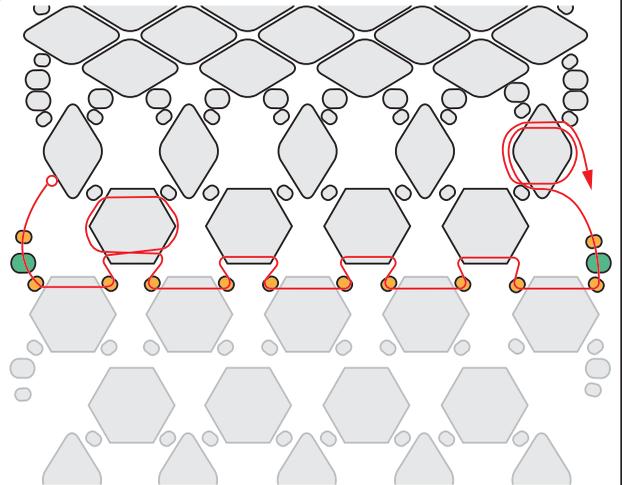

Pick up an 11/0 seed bead, 8/0 seed bead, 11/0 seed bead, 2nd color of Honeycomb bead and another 11/0 seed bead. Sew through outer holes of the first row of primary color honeycomb beads. Loop around honeycomb to secure pattern.

Pick up an 11/0 seed bead, honeycomb and 11/0 seed bead and sew through next honeycomb bead. Repeat this two more times.

Pick up an 11/0 seed bead, honeycomb, 11/0 seed bead, 8/0 seed bead, 11/0 seed bead and through left most diamonduo bead. Follow illustration through to the other side through diamonduo.

8

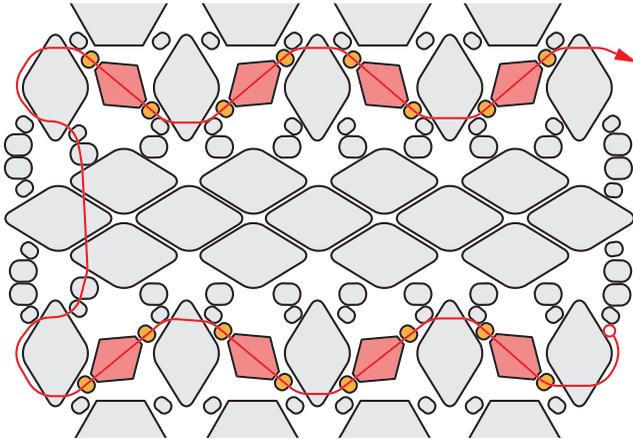

Place and cup your pattern in the center of the licorice leather, making sure the diamonduos are in back of the licorice leather's inward curve. You're going to add beads to zip up your tube, while encasing and shaping it around the licorice leather.

Pick up an 11/0 seed bead, 8/0 seed bead and 11/0 seed bead. Sew through other hole of secondary honeycomb (those you had added in step 7). Loop around honeycomb to secure pattern. Follow the illustration to adding a size 11/0 seed bead between each honeycomb bead. Make sure you pull your thread to secure the pattern and and form the tube shape.

Lastly at the end, pick up an 11/0 seed bead, 8/0 seed bead and 11/0 seed bead. Sew through the far right diamonduo and loop around it to secure tube pattern.

9

You're going to follow the illustration to add an 11/0 seed bead, 4mm bicone crystal and 11/0 seed bead in between each diamonduos and sewing in a diagonal.

Follow illustration all the way through to adding the 8 bicone crystals. Loop around the last diamonduo, tie off and cut off excess.

Make sure to tie off other end, for security and cut off excess.

10

Slide a rubber o-ring to either sides of your tube pattern to secure it in centered and in place.

11

Cut licorice leather to your wrist size. To do this, put the licorice leather around your wrist with the magnetic clasp slid on each side (don't glue clasp yet). Cut leather to accomodate your wrist.

Finalize your bracelet by gluing your magnetic clasp on with Super New Glue. Let bracelet sit for an hour or more before wearing it.
