

TierraCast Paw Print Bracelet - Pattern Tutorial

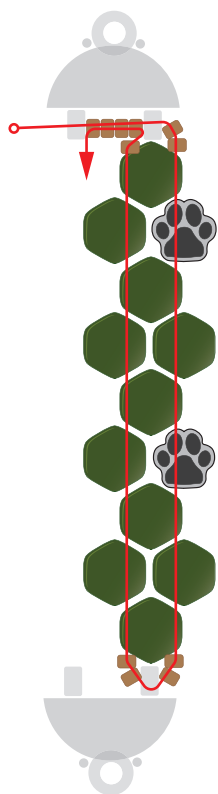

Components

(2) Stitch-In Links by TierraCast
 Czech Honeycomb Two-Hole Beads
 (4) Paw Print Bead by TierraCast
 Beading Thread
 Beading Needle

Tip: Be sure to weave in paw beads in a consistent direction. If using the Oasis Stitch-in links, attach with the same sides facing up. Adjust thread tension throughout to take up slack, but don't pull too tight.

Instructions

1

Thread needle with 30" beading thread. String stopper bead onto thread and position it about 4" from the end. Bring needle around bead and through hole again and pull tight to secure in place.

Pass needle through loop of one stitch-in link (from outside), pick up 4 seed beads and pass through second loop.

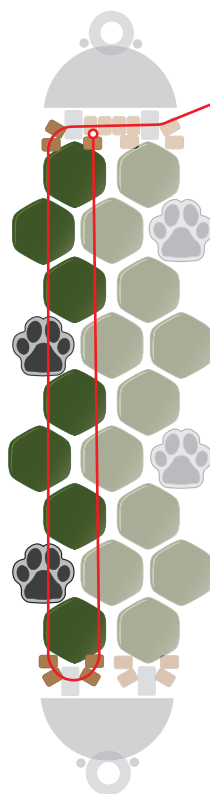

Row 1: Pick up 2 seed beads, one honeycomb, one paw bead, 3 honeycombs, 1 paw bead, 3 honeycombs, and 2 seed beads.

Pass needle through loop of second stitch-in link (from outside), then pick up 2 seed beads.

Row 2: Pass needle through second hole of Row 1 honeycomb bead, then pick up another honeycomb bead, nestling the beads together in alternating pattern. Repeat 3 times, then pass needle through last Row 1 honeycomb bead.

Pick up 1 seed bead then pass needle through the 4 seed beads from Step 2

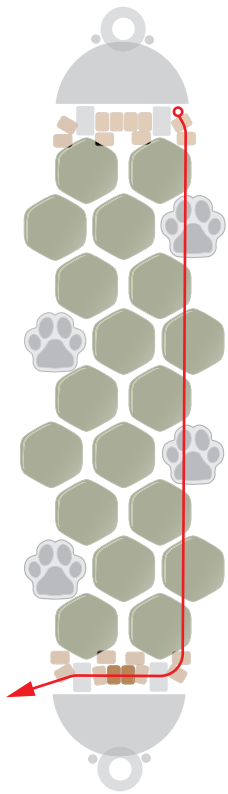

2

Row 3: Pick a seed bead and 1 honeycomb, then pass needle through second hole of next Row 2 honeycomb. Repeat 3 times, then pass through last Row 2 honeycomb. Pick up 1 more honeycomb and 2 seed beads, then pass through stitch-in loop.

Row 4: Pick up 2 seed beads and pass through second hole of last Row 3 honeycomb. *Pick up 1 paw bead, then pass through second hole of next honeycomb. Pick up 1 honeycomb and pass through next honeycomb*. Repeat * through * and pick up 2 seed beads.

Pass needle through stitch-in loop, 4 seed beads and second stitch-in loop.

Follow thread path back down Row 1 beads, through stitch-in loop and first seed bead from Row 2.

Pick up 2 seed beads and sew through bottom bead of Row 3 and through stitch-in loop.

Weave up through Row 4 and make a knot and weave through a few beads and then trim thread.

Remove stopper bead on tail and repeat to tie off ends.

TWO Ways to Finish your Bracelet Design

Chain bracelet:

1. Determine desired bracelet length and cut 2 pieces of chain as needed, allowing $\frac{3}{4}$ " for clasp assembly. (Two $1\frac{3}{4}$ " pieces of chain will create a $7\frac{3}{4}$ " bracelet.)

2. Open one jump ring and attach one piece of chain to end loop of stitch-in link. Close jump ring. Open a second jump ring and attach at other end of chain, adding clasp ring before closing.

3. Repeat Step 2 at other end to attach clasp bar.

Leather Bracelet:

1. Determine desired bracelet length and cut 2 pieces of leather strap as needed, allowing $\frac{3}{4}$ " for clasp assembly. (Two $1\frac{3}{4}$ " pieces of strap will create a $7\frac{3}{4}$ " bracelet.)

2. Use hole punching pliers on smallest setting (2mm) to make a centered hole $\frac{1}{8}$ " from one end of leather strap. Repeat at other end, then repeat with second piece of strap.

3. Insert 1 eyelet down through hole from top of strap. Turn piece over and place flange side down on bench block or onto eyelet anvil. To set eyelet on bench block tap eyelet tube with ball peen side of hammer until flush with leather. To set with eyelet anvil and setter, place setter into eyelet tube and tap with hammer until set.

4. Repeat Step 3 with remaining eyelets.

5. Open one jump ring and attach to eyelet on one piece of strap, then to end loop of stitch-in link. Close jump ring. Open a second jump ring and attach at other end of strap, adding clasp ring before closing.

6. Repeat Step 5 on other side, using two jump rings when attaching clasp bar.

Video Tutorial

Designed by: Tracy Proctor

Finished Size: Approx. 7 1/2"

Skillset: Beginner-Intermediate

Supplies Needed:

CHAIN VERSION:

- 1 Bar & Ring Clasp (94-6016-12)
- 2 Hammertone Stitch-in Link (94-3230-61)
- 4 Paw Bead (94-5860-12)
- 4 4x3mm ID Oval Jump Ring (01-0018-01)
- 3-4" Brass Cable Chain 6x4mm, Ant. Silver Plate (20-0425-12)
- 18 Pastel Olivine 6.5mm 2-Hole Honeycomb Beads (Z013769)
- Size 11 Round Seed Beads, lt brown or tan color
- Beading Thread

Required Tools: beading needle, scissors, thread cutters, chain and/or flat nose pliers (2)

LEATHER VERSION:

- 1 Bar & Ring Clasp (94-6016-12)
- 2 Oasis Stitch-in Link (94-3226-12)
- 4 Paw Bead (94-5860-12)
- 5 5x3.5mm ID Oval Jump Ring (01-0019-01)
- 1 Leather Strap 1/2"x10", Cocoa
- 4 3.7mm Eyelets
- 18 Turquoise Dark Travertine 6.5mm 2-Hole Honeycomb Beads (Z014812)
- 20 Size 11 Round Seed Beads, lt brown or tan color
- 1 Stop Bead – size 11 seed bead in alternate color
- Beading Thread

Required Tools: beading needle, scissors, thread cutters, chain and/or flat nose pliers (2), rotary hole punching pliers, hammer, bench block, optional: eyelet setter & anvil
